Intensive Course on IFRS

Stay Smart

May 2025
PwC Zürich
Birchstrasse 160
8050 Zürich

An event presented by PwC's Academy

Intensive Course on IFRS

Does your company report in accordance with International Financial Reporting Standards (IFRS® Accounting Standards)? Are you responsible for preparing the financial statements in compliance with IFRS Accounting Standards? Is your company considering a move to IFRS Accounting Standard (IFRS)? Do you simply want to extend or to refresh your IFRS expertise? Then the PwC's intensive course on IFRS is right for you.

Objectives

The objectives of each of the modules is to:

- Explain the scope of the standard;
- Describe the core concepts of recognition, classification and measurement and the key definitions included within the standard and
- Illustrate the application of this knowledge using examples.

You will understand the core principles of IFRS to be applied in most typical transactions and situations in a company's life-cycle. You will be able to start putting technical theory into practice and will also have the opportunity to network with our IFRS specialists and peers who can become a key source of support for technical accounting challenges in your future career.

Organisation

All modules are specially designed for finance specialists and users of IFRS. In class you have presentations, group work, case studies and sharing sessions to expand and apply what you have learned.

Programme

Module 1: Revenue recognition, share based payments and others – 8 May 2025

- IAS 7** Cash flow statement: classification (operating, investing or financing) and disclosure requirements
- IFRS 15** Revenue recognition from contracts with customers: a comprehensive overview of the standard, recognition and timing of revenue, the five step model, presentation and disclosures
- IFRS 2** Share based payments: scope and classification
- IFRS 8** Operating segments: identifying operating segments, determining reportable segments, presentation and disclosure
- IAS 37** Provisions: recognition, measurement and disclosure requirements

Module 2: Leases, pension, taxes, foreign currencies – 9 May 2025

- IAS 12** Income taxes: recognition and measurement principles for deferred taxes, tax reconciliation and determination of the tax base and tax rate
- IAS 19** Employee benefits: overview of the types of employee benefits from an accounting perspective
Pension accounting: defined contribution and defined benefit plans
- IAS 21** The effects of changes in foreign currencies: identifying the functional currency and the presentation currency, treatment of foreign currency transactions
- IAS 33** Earnings per share: calculation of basic and diluted earnings per share (EPS), treatment of bonus and rights issue and contingently issuable shares
- IFRS 16** Lease accounting in detail: definition of a lease, defining the lease term, measurement of the lease liability, recognition of the right-of-use asset and lease modifications

Programme

Module 3: Consolidation and business combinations – 12 May 2025

- IAS 36 Impairment of assets: internal/external impairment indicators, identification of cash generating units, determining recoverable amount
- IAS 38 Intangible assets: recognition and measurement principles, research and development costs, intangible assets in business combinations, subsequent measurement
- IFRS 10, IFRS 11, IFRS 12, IAS 28 Consolidation and reporting in a group: concept of “control” and structured entities, partial disposals, treatment of joint arrangements, associates and non-controlling interests (NCIs)
- IFRS 5 Non-current assets held for sale and discontinued operations: classification and measurement principles, treatment of impairment, disclosure
- IFRS 3 Business combinations: scope, identifying the acquirer, acquisition date, purchase price allocation, full and partial goodwill method, disclosure
